PROFESSIONAL SUMMARY

Third-year Computer Science student at the University of Pretoria passionate about software engineering, mobile development and user-centred design. Hands-on experience building Flutter and React applications, designing interfaces in Figma, and delivering features in Agile teams. Skilled in Dart, JavaScript, TypeScript, Java and SQL, and comfortable collaborating across design and development to turn ideas into clean, usable products.

EDUCATION

University of Pretoria — **Pretoria, Gauteng**
BSc Computer Science — *February 2024 – Present (expected 2027)*

- **Relevant coursework:** Data Structures & Algorithms, Object-Oriented Programming, Software Engineering, Interaction Design, Artificial Intelligence, Machine Learning, Computer Organisation & Programming

S.J. van der Merwe Technical High School — **Lebowakgomo, Limpopo**

EXPERIENCE

Budget IT – Fintech Budgeting App — **Hatfield, Gauteng**
UX/UI Designer — *July 2026 – Present*

- Collaborated with developers to translate UI designs into working features for a fintech app that helps users make better financial decisions.
- Designed user flows and wireframes in Figma for budgeting scenarios, transactions and savings-goal pages.
- Designed **12+ UI screens** and **9 reusable UI components**, keeping the app consistent through a shared design system of colour tokens and typography.

PROJECTS

Capstone: Budget IT | Flutter, Dart, Drift (SQLite), Git, CI/CD — **Hatfield, Gauteng**
Frontend Lead & UX/UI Designer – Team Dev Oops, industry-sponsored by Fuse IT — *April 2026 – October 2026*

- Developing an offline-first fintech mobile app with secure local storage, so users can budget without internet access.
- Built the interactive Goals feature (tier weighting, timelines, scenario comparison) and dashboard widgets for spending charts, monthly trends and insights.
- Worked in Agile sprints with Git version control and CI pipelines, including resolving CI build failures for the team.

Municipal Information & Services Portal (MISP) | Next.js, React, TypeScript, NestJS — **Hatfield, Gauteng**
Frontend Developer & UX/UI Designer — *February 2026 – April 2026*

- Designed wireframes and built frontend pages letting residents manage accounts, service requests and disputes.

Plant System | C++, Qt — **Hatfield, Gauteng**
Programmer — *September 2025 – October 2025*

- Built an app to manage and track plant records for a simulated plant store using object-oriented design.

E-commerce Platform | MySQL, phpMyAdmin, REST API — **Hatfield, Gauteng**
Full-stack Developer — *January 2025 – May 2025*

- Built a full-stack e-commerce website, designing the MySQL database and the REST API connecting it to the frontend.

Real-time Delivery Drone System | Node.js, Socket.io, React — **Hatfield, Gauteng**
Programmer — *January 2025 – May 2025*

- Built real-time chat between customers and delivery staff with live delivery tracking.

LEADERSHIP & ACTIVITIES

IITPSA Student Cybersecurity Challenge — **Team Participant**

- Solved cybersecurity challenges as part of a team, covering secure systems design and technical problem-solving.

Volunteer Robotics Mentor — **Joint Community Program**

- Mentored Grade 9 learners as they built and programmed a racing robot, turning first-time computer users into confident builders.

SKILLS

- **Languages:** Dart, Java, Python, JavaScript, TypeScript, C++, C, SQL, HTML/CSS
- **Frameworks:** Flutter, React, Next.js, Node.js, NestJS, React Native, Qt
- **Tools:** Git/GitHub, Docker, Figma, MySQL, Android Studio, IntelliJ, PyCharm, Jupyter Notebooks
- **Practices:** Agile/Scrum, CI/CD, UI/UX design, wireframing, object-oriented design
- **Soft skills:** Effective communicator, critical thinker, strong time manager, active listener, collaborative team player

INTERESTS

- **Swimming** – builds discipline and persistence
- **Drawing** – sharpens my eye for detail and visual design
